

Rule 102. Source Tests (Adopted 5/23/72, Revised and Renumbered 11/21/78,
Revised 4/13/04)

- A. The Air Pollution Control Officer may require of an applicant or permittee whatever sampling and source tests necessary to verify compliance of these rules when processing an application for a Permit to Operate, when renewing a Permit to Operate or whenever the Air Pollution Control Officer finds that an analysis is necessary. Testing shall be completed within 30 days of the request and a report submitted to the District 45 days thereafter or on another schedule preapproved in writing by the District. All costs shall be paid by the applicant or permittee.
- B. Any source test or analysis which is submitted to substantiate an application for a permit and/or operation within the Rules and Regulations of the Air Pollution Control District, shall be conducted in strict conformance with the test method specified in the applicable District rule. Alternative test methods may be used with prior written approval by the District, ARB and EPA. The Air Pollution Control District shall have the right to observe and approve all such source tests and analysis. The Air Pollution Control District retains the authority to conduct such source tests and analyses as are deemed necessary to evaluate status of compliance and/or permit application materials.
